These are all very good suggestions which I hope you will co-ordinate with those responsible and pursue. And, in general, there is a need for as much communication as possible to counter the misinformation being spread out there .

Thanks  
Mary.

Dear Council Member - Council Office Cheh,

Thank you for moving ahead with the Tenley Library private public partnership. This decision for a mixed use project demonstrates the forward thinking that we celebrate for our neighborhood.

I believe that there are a couple of statements that the city could issue that might help the community come together in support of the project:

I was told by Eric Scott that Allen Lew's shop will be completely responsible for Janney's modernization, that LCOR will not be responsible for determining the design and program. If this is true, and this fact was made public, I'm sure that would ease the concern of many in the community.

To quell the concern that economic factors are driving this process, it would be beneficial for the Mayor to announce that the Deputy Mayor for Education will be as involved in the

9/2/2008

process as the Deputy Mayor for Planning and Economic Development. Reinoso is well trusted in Ward 3 and that would help assure the community that the school's needs will be well represented in the process.

ANC3E is selectively leaking out a 3/31/08 draft of the MFP that shows Janney as #8 for modernization. They interpret this document to mean that Janney was being moved up anyway or has already been moved up and will necessarily stay moved up. You certainly must realize that if the community could kill the PPP and have Janney remain in the #8 spot, most in the community would choose that option! I believe that this is another case where the ODMPED or Mayor has to come out and state (if true) that Janney will only move up if the PPP happens. Now that this document has been circulated, it is no longer good enough to say it the other way round.

I thank you for moving forward on this Partnership, and I certainly hope to hear increased and improved communication from the DC Government as the project evolves.

Sincerely,  
Allison Barnard Feeney
