Re: Replacement of Traffic Control Signal – Ward 3
Notice 11-35-TOA

Dear Mr. Cheeks:

ANC 3E supports the DDOT study of modification of traffic control at the intersection of Yuma and 46th Streets. While the request has been to replace the traffic signal with all-way stop signs, we appreciate your incremental approach to this change in traffic calming. It is our understanding that the new control will be implemented by first operating an all way red light flash on all four approaches at the intersection for a 90 day evaluation. At that point, we would like to see a DDOT study showing the results of the 90 day trial and DDOT's recommendation for proceeding. We expect thereafter to send DDOT a second resolution advising whether or not we support DDOT's recommendation.

ANC 3E approved this letter resolution at a properly notice meeting on January 12, 2012, at which a quorum was present, by a vote of 4/0/0.

We thank you for your responsiveness to this community request.

ANC 3E
