### **Resolution Regarding DDOT Notice of Intent 15-238-TOA regarding the Installation of New Pedestrian Hybrid Beacon Signal at intersection of Veazey NW and Wisconsin Avenue NW**

**Whereas**, the unsignalized crosswalk at the intersection of Wisconsin Avenue and Veazey Street NW has been the site of many dangerous pedestrian versus vehicle incidents one of which resulted in a pedestrian fatality.

**Whereas**, DDOT has determined the site warrants additional measures to ensure the safety of pedestrians, bicycles and vehicles.

**Now therefore be it resolved**, ANC 3E supports DDOT's proposal to install a HAWK (High Intensity Activated Crosswalk) at the intersection in the interests of increasing pedestrian safety as well as vehicular safety. It will also, as noted by DDOT, make it safer for persons with disabilities as well as elderly residents to cross.

**Further be it resolved**, DDOT examine clearances around the crosswalk vis-à-vis adjacent parking spaces to ensure pedestrian safety with regard to adequate vehicular sightlines for drivers to see pedestrians attempting to enter the crosswalk.

The resolution passed by a vote of 5-0-0 at a properly noticed meeting held on December 10, 2015, at which a quorum was present, with Commissioners Bender, McHugh, Quinn, Hall and Wallace in attendance.
