ANC 3E Resolution in support of green infrastructure installation at the southeast corner of Wisconsin Ave and Warren St.

Tenleytown Main Street (TMS) received a grant from the Department of Energy and Environment (DOEE) to construct and maintain green infrastructure. TMS selected the Center for Watershed Protection Inc. (CWP) to complete the design and permitting of the green infrastructure project. During a previous grant received from Department of Energy and Environment (DOEE), various concept designs were created in conjunction with BIDs and Main Streets, and CWP and DOEE selected Tenleytown Main Street (TMS) to be the recipient of final design and construction funding. 60% design of the current project was completed under this previous grant; the remainder under the grant TMS received. Green infrastructure practices provide many environmental and economic benefits and protect against the harmful impact of stormwater.

The design selected by DOEE, CWP, and TMS is located at the corner of Wisconsin Ave and Warren St and includes the removal of impervious area and replaces it with a permeable pavement walkway with a bioretention on both sides of the walkway to improve not only water quality, but beautification of the area.

Whereas, as a recipient of DOEE funding, TMS has agreed to maintain the proposed green infrastructure.

Whereas, the proposed project will:

- Improve stormwater management and retention at one of the low points along Wisconsin Avenue.
- Beautify Wisconsin Avenue through the addition of plantings and bench seating in front of PNC Bank

Now therefore be it resolved, that ANC 3E supports the proposed green infrastructure, as referenced under DDOT Tracking Number #410898.

The resolution passed by a vote of ___-___-___ at a properly noticed meeting held on January 12, 2023, at which a quorum was present, with Commissioners Bender, Carney, Cohen, Denny, Gianinno, Ghosh, Hall and Quinn in attendance.
